VISITORS WELCOME

We will have thousands of seedlings which will begin blooming May 1 and continue throughout the summer. You are invited to visit our gardens at your convenience. We will have daylily bloom from the time the iris blooms until frost.

TIME OF SHIPMENT: From August 15 to October 15.

TERMS: Full remittance with order—check or money order. No C.O.D.'s. We pay the postage on orders of \$5.00 or more. Please add 50¢ on orders less than \$5.00.

SUBSTITUTIONS: Please give second choice. Other than that no substitution will be made without your permission and your money will be refunded.

FREE: We usually give you about 10% of your purchase in extra daylilies. Please make suggestions from our general list.

GUARANTEE: Our plants are STATE INSPECTED. Guaranteed true to name and in good growing condition when shipped. No warranty can be given for cultural success. However, if for any reason or no reason, you are dissatisfied when stock arrives, you may return it and your money will be promptly refunded—plus return postage.

1959 INTRODUCTIONS

This year we are introducing three more early birds—a pink and two small red dwarfs and one midseason.

GAMIN—12" tall. 2½" flower. Dark red with a line of buff around both petals and sepals, giving it a very striking appearance. In this locality it blooms early in May. Increases rapidly. The foliage is dark green and attractive. 15 buds. Reblooms.....\$5.00

PORGY—12" to 15". A red self that blooms in this locality about the first of May. 2½" red flower with a slightly darker eyezone. This, also, is a vigorous grower as well as a rebloomer. 20 buds.\$5.00

LADYBUG (16 0 14)—20" to 24". The earliest pink we have seen to date. Blooms about the 15th of May and continues blooming until the midseasons open in June. A melon pink with a maroon eyezone and green to yellow throat. Triangular shape with recurved petals. 5" flower. Excellent for hybridizing. It throws both pink and early ones. Very sun resistant. Remontant.....\$12.50

PLACID MOON—36" Midseason. Night bloomer. Pale yellow. Green throat. Fully recurved petals and sepals which recurve at an angle and give it a very definite flair. 35 to 50 buds. This one opens early enough in the evening before dark to give it a definite value for the terrace and lighted doorways. Excellent substance and branching. Stays open all the following day. Long season of bloom. Very fragrant.....\$12.50

1958 INTRODUCTIONS

LIME SPRITE—Night bloomer. 30" to 36". Stays open 24 hours. Sun resistant. Heavy substance. Small round 3" flower of pale lemon with green throat. Both petals and sepals fully recurved. Exquisite for arrangements or for the evening garden. Vigorous grower. Proliferates profusely. In our latest of springs, it has always been open by May 1. 23 buds. Remontant.....\$5.00

SOONER GOLD—18" to 22"— Deep gold self. 4" flower. Very fragrant. Opens early in the morning and stays open until noon the following day. Reblooms early in the fall with as many as 32 buds and is a mass of bloom until cut down by frost. We have had fall blossoms remain open four days. This blooms early enough in the fall to harvest the second crop of seeds enabling one to make crosses with pollen saved from other major varieties....\$5.00

SPRING GOLD—27" Early. Medium yellow with green throat. Ruffled overlapping sepals and petals. 6" flower. Blue-green foliage. 30 buds give it a six weeks' period of spring bloom. Heavy plum-blossom fragrance. Remains open in the evenings. Remontant\$5.00

POT OF GOLD—30" Early. Deep gold with green throat; back side of pollen carrier is black. 50 to 60 buds. Heavy texture. Remains open all night. The recurved petals are so ruffled at the edge that they appear to be picoted. 3" flower. This came into bloom on May 3 last year and was still going strong June 6. One of the best for landscaping. Repeats in the fall.....\$5.00

RED BONNET—24" Early. 3½" flower. Medium red self; gold throat. 25 buds. Heavy velvety texture. Repeats throughout the summer\$5.00

CUTE BABY (J. C. 1957) 36" Midseason-Late. Medium gold with green throat. Small 2¾" flower. This little baby will have anywhere from 50 to 108 buds per scape. What it lacks in size it makes up in number giving it an exceptionally long period of bloom. It will still be blooming when the repeat bloomers come again. The branching is in such wonderful proportion that there is never that "leggy look" to this plant.....\$10.00

TULSARAMA—32" Midseason-Late. Remontant. Medium sized, recurved, ruffled, deepest gold self with green throat. Proliferates. Blue-green foliage. Vigorous grower. 40 buds. We have had no burning on this flower even when the temperature was 104°. It seems to thrive and rebloom even under drouth conditions when nothing else does.....\$10.00

General List

ADELE PITZER (Lamb) ML 45" Medium red self.....	\$4.00
ALIGHT (Kraus) M 30" Azalea-pink	\$10.00
ATLAS (Kraus) ML 34" Huge light yellow	\$7.50
BAND MAJOR (Childs) M 36" Re. Large yellow self.....	\$7.50
BIRETTA (Kraus) M 28" Dor. Sunfast ruby-red.....	\$3.00

TERRY'S PLANT MARKERS

Made of galvanized steel and painted a neutral green color. The head is spot welded onto the stake at an angle of 35 degrees, an ideal position for easy reading of data.

We furnish 40 aluminum cards with each box of 36 markers. You simply write your data on the foil card by placing it on a blotter and indenting with a lead pencil. For better visibility it can be traced with a waterproof or metallic ink.

After you have marked the card, slip it through the slot at each end of the marker head and fold back to lock in position.

TERRY'S PLANT SUPPORTS

The "Kink" prevents the loop from rotating with the swaying of the plant.

These Supports are made of Sturdy Galvanized Wire and are painted a neutral green color. Just stick in ground to desired height, then hook loop around plant stem and "Terry Plant Supports" are ready for use.
